

The Creative Vision Team

At the start of the year the team focused on a whole school project- the assembly hall mural with artist Barry Spence. The students researched and contacted the artist during term 1 and we worked with Barry to complete the mural which is an abstract view on life and the future.

Towards the end of term 1 application forms were handed out to students to apply for the CVT. Interviews were held and 9 new members from Year 7 and 8 successfully joined. They worked with a local sculptor; Ruth Moilliet to design a sculpture for The Radclyffe School Sculpture Park. The students collaborated with Ruth and the MFL department to create design ideas with Year 7. The overall design was agreed during a trip to Ruth's solo exhibition at Kirkby Art Gallery. The sculpture will be the first to be positioned in the sculpture park. Each year the CVT will research and work with 2 sculptors to create 2 sculptures for our sculpture park. The aim is to have a sculpture for every faculty area within 4 years.
